infrastructure, raw material supply, environmental clearance and other resources constraints. Memoranda of Understanding (MoUs) have been signed with various State Governments for setting up of nearly 243 million tonnes of steel capacities in the country.

Steel is deregulated sector and the market determines import of steel. Nonetheless, Ministry of Steel is monitoring the import and export statistics of steel with the help of the Directorate General of Systems, Customs & Central Excise (DGSE&CE). A system has been devised whereby Joint Plant Committee (JPC) under the Ministry of Steel has been authorized to access the data relating to import of iron and steel on daily basis from the Indian Customs and Central Excise Electronic Commerce/Electronic Data Interchanged (EC/EDI) Gateway (ICEGATE). In case increase in import of any commodity proves detrimental to the domestic industry, the Designated Authority in the Directorate General of Anti Dumping and Allied Duties functioning in the Department of Commerce takes appropriate measures in consultation with the concerned Ministry.

Employment to displaced persons in VSP

1705. SHRINANDIYELLAIAH: Will the Minister of STEEL be pleased to state:

(e) the reasons for providing jobs in Visakhapatnam Steel Plant only for 6310 displaced persons while 14,827 were registered during 1971;

(f) the detailed plan of Government to accommodate the remaining displaced persons;

(g) whether Government would assure of accommodating remaining eligible displaced persons by relaxing age upto 40 years for general, 42 years for OBC and 45 years for SC/ST when the plant is expanding now and assure of paying rupees ten lakhs aeach to noneligible displaced persons; and

(h) if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL (DR. AKHILESH DAS): (a) and (b) After detailed deliberations at various levels, the Visakhapatnam Steel Plant (VSP) had given a commitment to provide employment to a maximum number of 5000 displaced persons affected on account of acquisition of lands. As against this commitment, 6310 displaced persons have been employed and thus, the commitment has been more than fulfilled. Moreover, 2956 displaced persons have been engaged with contracting agencies working for VSP.

(c) and (d) The upper age limit for recruitment of candidates against notified posts of Trainee Khalsi and Junior Trainee is 25 yrs. RINL had extended relaxation of this upper age limite to displaced persons by another 10 years. With this relaxation, the upper age limit for displaced persons in the general category is 35 years, GBC-38 years and SC/ST-40 years. A further relaxation of 10 years is also given to physically handicapped candidates. thus, additional age relaxation to displaced persons exclusively may net be feasible.

Private steel factories in Orissa

†1706. SHRI RUDRANARAYAN PANY: Will the Minister of STEEL be pleased to state:

(d) whether me expansion work of Rourekala Steel Plant (RSP) at Orissa has been started',

(e) if so, the details thereof;

(f) whether the Central Government is aware that a number of private steel factories have come up in Orissa; and

†Original notice of the question was received in Hindi.

(d) if so, the details thereof and the manner in which public undertakings are being enabled as compared to the said factories?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL (DR. AKHILESH DAS): (a) and (b) Yes, Sir.SAIL has already approved the expansion of all its major steel plants including Rourkela Steel Plant (RSP) at Orissa. The expansion of Rourkela Steel Plant envisages the enhancement of its annual hot metal production from 2.12 MT per annum to 4.5 MT per annum at a cost of around Rs. 7,668 crores. For the expansion plant of Rourkela Steel Plant (RSP), tendering of the component packages is in progress and is under various stages of final ization.

(c) and (d) Yes, Sir. A number of steel projects are coming up in Orissa for which private companies have signed MoUs with the State Government of Orissa. A list showing the names of the companies that have signed MoUs is given at Statement (See below). As regards steel producing units under Ministry of Steel, Steel Authority of India Ltd. (SAIL) and Rashtriya Ispat Nigam Ltd. (RINL) are undertaking ambitious modernization and expansion plans. SAIL proposes to modernize an expand capacity at its plants to increase production of hot metal from the present level of 14.6 million tonnes per annum (2006-07) to 26 million tonnes per annum by the year 2010-11 at a present indicative cost of Rs. 54,000 Crores. Similarly, the expansion plan of RINL, at an estimated cost of Rs. 8692 crores (base June 2005 prices), aims to increase its liquid steel capacity from 3 million tonnes to 6.3 million tonnes per annum by the year 2009. Apart from augmenting the production capacity at the plants, the plans of SAIL and RINL also envisage removal of technological obsolescence, reduction in energy consumption, improvement in product mix, up gradation of pollution control measures and augmentation of infrastructure facilities to support higher production. The measures are expected to confer a competitive edge on SAIL and RINL.

Statement

List of Steel Plant Projects for which MoUs have been signed with the State Government of Orissa

Sl. No.	Name of the Company	Location	Capacity in MTPA		Investment Rs. in crore	Date of Signing of MoU
1.	M/s Bhushan Power & Steel Ltd.	Lapanga, Sambalpur	Phase-I	1.2	1650	15.05.2002
